CAPTAIN CANOT. THOR OF THE GREAT BOOK JUST BE IN PUBLISHED, SPEAKS of HAMPTON'S GREAT CURE OF RHEUMATISM CONTRACTED UNDER TROPICAL CLIMATES. BALTIMORE, Md., June 4, 1854.

Mr. Rockbridge, of the Fountain Hotel, Light street, Dear Sir : Being on the point of leaving the city. avail myself of a few idle moments to thank you kindly for the medicine you sent me, and which has restored me to the use of my limbs. I beg you to send me four bottles more, to carry on my voyage. since I had the fortune to use Dr. Hampton's Yege table Tincture my confidence is so strong that, in graticude to the proprietors of said medicine, I beg you to present my respects to them, and induce them to make it more publicly known as a sure kheumatic cure. Having called on me on the 19th of April last, and seen me prostrated on my bed, useless in all my limbs, you can appreciate nearly as well as myself the prompt relief I received from

Dr. Hampton's Tincture, and I am positive had it

not been for your strong and forcible recommendations I should still have been in bed. It is really a pity this specific should not be apcroved by medical men, and like all patent drugs it should suffer the imputation the public generally give to such preparations. I myself, who was al ways opposed to a patented specific, took this medi-cine with reluctance, and without confidence in it; and it was only through your disinterested, friendly recommendations, and my critical situation that in-

You may inform Messrs. Mortimer & Mowbray. hat they are at liberty to make use of my name in he support of the good effects of Dr. Hampton's Vegetable Tincture, as it has cured me in five weeks of a chronic Inflammatory Rheumatism, contracted under tropical climates, and of seven years' periodical duration. I have only used three bottles, and find that even the deformed parts of my hands are fast returning to their former natural appearance.

I have been under the treatment of several physicians in London and Paris, without any apparent benefit; also, while in New York, having tried the hompsonian and Homospathic remedies, after have ing been tormented with galvanic ba teries, cold and aromatic baths, and hundreds of internal and external medicines, all to no effect, I am, so far, cured by this Hampton's Vege able Tincture only. Therefore, my dear sir, accept of the assurance of my grafitude, and believe me your well wisher. THOMAS CANOT.

REV. VERNON ESKRIDGE, U. S. N. Portsmouth, Va., Aug. 18, 1851. Mr. J. E. Boush—Sear sir: While I am, in gene rai, opposed to patent medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family; and in dyspensia, loss of appetite, dissiness, and general deextends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

DR. HOOFLAND'S Celebrated German Bitters. PREPARED BY DR. C. M. JACKSON to. 180 Arch street, Philadelphia.

Their power ever the above diseases is not excelled for ualled, by any other preparation in the United tater, as the cures attest, in many caces after skilad physicians had failed. These bitters are worthy the attention of invalide. Possessing great virtues in the rectification of dis

cases of the Liver and lessor glands, exercising the nabet searching powers in weakness and affections of the digestive organs, they are, withal, safe, certain and pleasant. BRAD AND BR CONVINCED.

Dr. O. M. Jansson: Dear Sir—For the past two rears I have been severely afflicted with Liver Comlaint, Dyspepsia, Bilious Diarriosa, and Piles, sut fixing in a great degree constantly, the pains and in-conveniences attendant upon such diseases, without energy, being scarcely able to attend to any business. I lost a great deal of my flesh, and used many tin is of medicine, with no apparent change, until I commenced with your "Hoofland's German Ballers," they have entirely cured me. I have gained in welco over forty pounds since I commenced their use, and I am now entirely free from pain and ache of any kind, and feel like a new man. I unhesitat ingly recommend your Bitters to all invalids.

Yours, respectfully, JOHN R. CORY. No. 12 Lagrange Place W. H. Adams, pub. of the Argus, Weston, Mc., July 17, 1851, said: "I was last summer so very low and weak as not to be able to stand at the case longer than one hour at a time. I tried one bottle of your German Bitters, which entirely cured me. I have used two bottles. I sent two bottles 150 miles from here to a friend who had been sick for a long time; he has also been cured by them. I believe them to be superior to any medicine new in use."

Good Sentiments. The following from the Albany Knicker

booker, commends itself for its good sense : OUT OF EMPLOYMENT. - Out of employment The exclamation is almost as common as the notices of "to let" on new houses. Why out of employment? Has ingenuity reached its end that flesh and blood must waste as the flower wilts when plucked from the stem Energy may be seen any day in the week at a street corner sharpening knives. Apple stands yield profit enough to pay for an upper room and something approaching to comfore Matches industriously offered have purchased a house and lot. Trips and sausagement enable the dealer to keep cool in warm weather, and more than pay for coals and expenses when frost prevails. An Ethiopian swill collector has qualified himself to exercise the elective franchise by pursuing his sloppy vocation with vigor. Out of employment? Who can know who or what you are if you stand at the corner moping and wondering why a stranger does not step forward and extend a helping hand Never hope to jump at once into prosperty, for the chasm between industry and idleness is of frightful width. Never allow pride to bring a blush to your check because your business. is humble. Pride is not reliable in all cases If you labor you produce, and producers are certain of reward in some form. If you are cheated of your money, an honest man may hear of your calamity, and with generous heart offer you a position. Never say "out of employment!" because no reasonable excuse can be offered therefor. The world is wide: the people daily find rest in the cometeries. and places must be supplied. There's work enough for all, while integrity and sincerity are characteristics. Try again.

PARADISE FOR A SPORTSMAN .- The shaggy monarch of the Western prairies, the buffal was long since driven from the heritage of hi ancestors, and forced to seek a home beyond the swift rolling waters of the Mississippi, The race, however, yet exists in the far west, and in the territory of Minnesota, particulary, at a distance of two hundred miles from he bed of the Father of Waters, towards the head streams of the Missouri, they are still found in almost incredible numbers. Gover his survey, last summer of the Northern Pacific Railroad route, passed droves which he estimated to comprise several hundred thousand of buffaloes. In some instances, they were forty or fifty miles in length, and extended on either side beyond the reach of vision Several mules and horses became so mingled with the droves that it was found impossible to retake them, and they were consequently abandoned. In the territory of Minnesota, elk are found occasionally, and deer exist in great abundance. Griszily bears are few and far between; but the common black bears abound in all parts of the region-although their numbers are slewly diminishing from year to year before the inroads of civilisation Wolves, wildcats, and various smaller animals, valuable for their furs, exist in almost inexhaustible profusion. Should the Northern Pacific Railroad be constructed. what an opportunity will be here afforded for enthusiastic smateur sportsmen to induige their tastes.

The wild beasts of the forests and plains would soon be exterminated or driven to the inaccessible fastness of the mountains. bear, the buffalo, and the deer, would be blotted from the prairies, which for hundreds of years have afforded them sustenancd and a home, and the places that knew them should know them no more forever.

THE CLERGY SCORNED .- We speak of clerymen, who not content with their vocation. profane it by making it subservient to political designs. We speak of ambitious, overbearing, dogmatical demagogues in clerical garments, who, when they go up into the pul puts for religious purposes, and see around hem persons differing from them in matters opinion as among the unpardonable sins. We speak of ordained politicians making sump speeches in sacred places - making them where by the laws of the land, no answer is permitted, and where a text of scripture at the beginning and an "amen" at the end can be resorted to as convenient artifices to increase heir effect upon the voters * Ignorant professors and insolent divines. whose brains have never been matured by practical knowledge, may degrade themselves. and moult the Senate, and outrage the public intelligence, and disgust the good taste of the people by unworthy exhibitions; but they

will not be able to effect anything more than to soil themselves. * * These bedge parsons, these Friar Turks who carry the Bible in one hand and the quarter staff in the other, who now pray with a nasal twang and now declaim with a demagogue fury, deserve chastisement at the hands of all who value pure religion and have a regard for the sacerdotal character. - Washington

RELIGIOUS FANATACISM.—The Salem. Mass. Register says Elder Cummings, one of the Immediatist Second Adventists, lectured in Me chanic Hall, in that city, Tuesday afternoon and evening, on the Second Coming of Christ The Register Reports:

At the end of his evening lecture, he said that the Jews reckoned by moons—that on Saturday last we had a new moon-that it as the last moon we should ever have—that the 10th of the 7th month would be about the lst of November, when the mediatorial office would cease—and that being so, Christ would certainly make his appearance on the 13th or | cay. ites, may they "chearfully recommendit to all whe are litch of November. He then remarked that he 400,000 machine made bricks, burnt, ready for mershould never meet with his hearers again on STILL ANOTHER CURE OF SCROFULA -I had earth, and took an affectionate leave of his andience, bidding them a last farewell.

GAME TO THE LAST .- A white man was pun ished with fifteen lashes, in Norfolk, the other day, for stealing \$15-one lash for every dol-Att. JOHN THOMPSON, residing in the city of lar. After the punishment was over, he Bichmond, was cared by three bettles of Carter's thanked the sheriff and gave three triumphant spanish Mixture, of Salt Rheum, which he had crows, a la Shanghai. This reminds us of the Irishman who, hav-

ing called for a glass of grog at a public house without having the reedy to pay for it, was severely flegged for his impudence; but who after sitting awhile in the bar-room, remarked to the tender, "Landlord, if ye are a mind to take yer pay in the same way, I'll take another glass of yer whisky." 19 .

THE NEXT CAMPAIGN .- The British Government is already making arrangements for the next campaign. The Dublin Daily Exress says that early in March the 18th, the 51st, the 54th, the 56th, the 66th, the 72d, and the 80th, the 82d, the 97th and the 94th regiments will be in England, and prepared to roceed to the Baltio . It would thus appear hat a long struggle is anticipated. The cost n the end will be immense, and unless the loubt be made to obtain restitution from the Czar. Such is already the sentiment of a large portion of the people of England and France.

The Washington Monument.

This structure is now over one hundred and. sixty feet high. The contributions, we hear, are insufficient to keep up the work actively. but it is hoped some better reason will be

found for refusing to contribute a dime than

that given by the old Dutch farmer in Pennsylvania. The picture, it seems, expressed too much for the occasion : A few years ago the proceedings of the Washington Monument Society in Washington received a sudden impetus Among the measures adopted to procure sufficient fun isfor the completion of the edifice was that of .. appointing an agent in each congressional

district throughout the United States, who were furnished with lithographs of the future monument, which were presented to such gentlemen as chose te subscribe. One of those agents called at the house of a very wealthy farmer, in the upper end of Dauphin county, Pennsylvania The whole family were soon assembled to look at the beautiful pictures. In the meantime the agent exerted all his eloquence to induce the sturdy bld German to "plank the tin." He

portrayed the services of Washington to his

country; he dwelt in glowing colors upon the gratitude we should feel for them. Suddenly the farmer broke silence : "What is all this for?"

The agent began again: "You know who Washington was Yes, he was the first President; he licked the British, didn't he?" "Yes, that's the man, and this monument is to be erected as a fitting testimonial of the

eternal gratitude of his countrymen. The anticipated subscriber studied the plate attentively. Well." said he, "I won't pay anything towards it; I don't see no use to build a house mit such a big chimney.'

The agent immediately left. The following brief description of the Sandwich Islands, now attracting so much attention throughout the country, cannot fail to

be interesting to our readers: "There are twelve islands in the Hawaiian groupe-eight of them inhabited-centaining 5:100 square miles. They lie between eigh teen degrees fifty minutes, and twenty-two degrees twenty minutes north latitude west from Greenwich. The productions of the different islands depend upon position and elevation above the sea. All the tropical fruits and plants, either indigenous or introduced from abroad, are abandant. On Hawaii Kanai, and in some parts of Maui, wheat, Irish potatoes, pea hes, strowberries, &c., of a fine quality, are easily raised Grapes abound. but the manufacture of wine is prohibited. Sugar and coffee are likely to be the great staples of the islands. The plantations are generally worked by Chinese coolies, who are employed at the rate of three dollars per month in China, and bound to service for a special term of years. The indigo plant grows wild in the greatest profusion everywhere, and is at much of a puisance as the James

town (gimson) woed in Virginia. "The climate of the islands is mild and comparatively uniform The ordinary yearly range at Honolulu is seventy degrees, the exremest being sixty five and eighty five Fah. repheit. The mean temperature during the last year was seventy-five degrees. While I and writing (eleven o'clock, a. m.,) the thermometer stands at ninety-six degrees."

CHINESE INSURRECTION .- The Chinese rebel chief has written a letter to the residents of Hong Kong, signifying his pleasure to them. He terms them "slaves and foreign devils," says they are but "fowls, apes and dogs by kind," ignorant of the fine relations; and not susceptible of civilination. He demands the apthorities to release such of his people as are in prisons, and treat Chinese gentlemen with respect. He says :

I, the King, have spoken of wat; and have talked of the movements of troops. We have many thousand guns of divine power, weighof political opinion, cannot content themselves ing millions of pounds. We have many my until they have denounced that difference of riad vessels 100 chang in length, which, without wind, can convey themselves hence to the three Kiank provinces. On a lucky day which we shall select, we shall descend straig on the province of Canton, and in the autum? shall send you a challenge to fight. Our clustering standards will shade the nine heavens and with numberless swords and spears we shall enclose the seas. Our divine fire shall consume your ships, our troops your dwellings; our divine weapons shall flash to the pole, and our divine youths and maidens shall be as thunder shaking the skies.
